Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a method for determining if the amount of toner required to render a print job using a given print engine the location of the print engine is available by decrementing the current toner level value in the toner level register by the accumulated image value for the print engine of the location of the print engine and maintaining this value, if a comparison of the accumulated image value with the toner level value for print engine prior to this step of decrementing indicates that the toner level value prior to this step of decrementing indicates that the toner level value prior to decrementing minus the accumulated image value is greater than a minimum toner level value associated with the print engine and sending the rasterized image to the print engine for rendering only if the decremented toner level value associated therewith has been determined to be greater than the minimum toner level as claimed in claim 32.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
